Africa has just three emerging markets: Morocco and Egypt on the northern end of the continent and the Republic of South Africa on the southern end. Many nations in the middle are termed frontier markets — less developed than the emerging markets. South Africa is the dominant economy south of the Sahara. Africa has enormous potential, and South Africa shows how economic growth happens.

The Emerging Market in South Africa - dummies

Africa may well be the last frontier in the global economy. This matters because as the West continues its slow recovery, Africa is positioned to catch up. The development of the BRICS has allowed for investment on the continent, however, if progress is to be made, Africans have to undergo a paradigm shift.
