(1) the Federal tax concept of income derived from oil, gas, and mineral production differs substantially from the customary business, accounting, or legal concepts of income; and (2) there is a substantial resemblance in the Federal income tax principles that apply to the production of oil and gas and to the production of other minerals.

## **Income taxation of natural resources (Book) | OSTI.GOV**

Natural resources are typically subject both to taxation under the income tax system and to special resource taxes. Properly designed income taxes attempt to include capital income on a uniform basis. But in most countries the income tax treats resource industries more favorably than most other industries - through favorable treatment of such capital expenses as depletion, exploration and development, and the cost of acquiring resource properties.
