Markup & Profit, A Contractor's Guide: Revisited explains the differences between markup and margin, and how to use both to calculate the correct sales price for any construction company.

### Markup & Profit: A Contractors Guide - Michael C Stone ...

Product Description. To succeed in a construction business, you have to price your jobs to cover all labor, material and overhead expenses, and make a decent profit. The problem is knowing what markup to use. You don't want to lose jobs because you charge too much, and you don't want to work for free because you've charged too little.

### Markup & Profit: A Contractor's Guide - PSI Online Store

Contractor markup is the sum of a contractors' overhead and profit. This number or percentage (as shown in most contractors' costs list) that gets added to a job's direct costs. The markup that a contractor sets for jobs can either make or break their business. It's an important figure that shouldn't be taken lightly by either contractor or customer.
