### Sales Engineering Wikipedia The Free

Sales engineering is a hybrid of sales and engineering that exists in industrial and commercial markets. Buying decisions in these markets are made differently than those in many consumer contexts, being based more on technical information and rational analysis and less on style, fashion, or impulse. Therefore, selling in these markets cannot depend on consumer-type sales methods alone, and instead it relies heavily on technical information and problem-solving to convince buyers that they should

### Sales engineering - Wikipedia

Sales process engineering is the engineering of better sales processes. It is intended to design better ways of selling, making salespeople's efforts more productive. It has been described as "the systematic application of scientific and mathematical principles to achieve the practical goals of a particular sales process".

### Sales process engineering - Wikipedia

Maybe the writer was a Sales Engineer himself, and what he wrote is really agreeable, still I think that any bias (even positive ones) are strange in an encyclopedia. — Preceding unsigned comment added by 89.96.130.141 ( talk ) 10:56, 28 February 2013 (UTC)

### Talk:Sales engineering - Wikipedia

The Sales Engineer article presents the work of a sales engineer in only one sphere. I know this because it has been my occupation for 3 decades. The focus of the article is on sales which have an IT connection, this ignores the sales of the many products and projects of other types.

### Talk:Sales engineer - Wikipedia

I've also proposed a merge of Sales process - the rational is that both articles are about exactly the same topic, and Sales process only really describes a business science definition that would fall under "Sales process engineering", not a general description.83.100.188.51 03:11, 4 September 2012 (UTC)

### Talk:Sales process engineering - Wikipedia
